(Lewes Office)

### Martha Corrozi Narvaez

Associate Policy Scientist

### Martin Wollaston

Policy Scientist

### Bernard Dworsky

Policy Scientist

## Graduate and Undergraduate Public Administration Fellows

bachelor's and master's degree  
students hired annually by the  
Institute for Public Administration  
to work for WRA

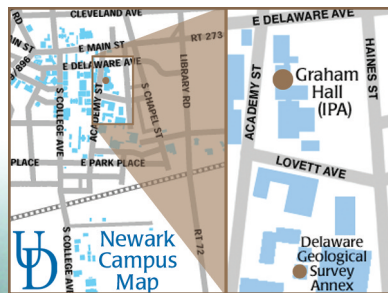

## What is WRA?

The mission of the Water Resources Agency (WRA) is to provide water-resources planning and policy assistance to governments in Delaware, the Delaware Valley, and along the Eastern Seaboard through the University's land-grant public service, education, and research role. Its goal is to be recognized as the best university water-resources planning and policy organization east of the Mississippi River.

Funding support for WRA comes from federal, state, and local government partners, including the State of Delaware, New Castle County, the City of Newark, and the City of Wilmington, as well as specific local, regional, and federal grants.

## Where is WRA?

WRA is located in Newark, Del., on UD's main campus, off Academy Street in the Delaware Geological Survey (DGS) Annex, which is a little house behind Penny Hall and a rain garden.

## WRA Partners

- Artesian Water Company
- Brandywine Conservancy
- Brandywine Valley Association
- City of Wilmington
- City of Newark
- Delaware Nature Society
- Delaware Center for Horticulture
- Delaware Greenways
- DelDOT
- Delaware River Basin Commission
- DNREC
- Duffield Associates
- FishAmerica Foundation
- New Castle Conservation District
- New Castle County
- NOAA
- Partnership for the Delaware Estuary
- The Nature Conservancy (Delaware)
- Tidewater Utilities
- UD Colleges (College of Engineering, College of Agriculture & Natural Resources, College of Earth, Ocean, and the Environment)
- United Water Delaware
- U.S. EPA

## WRA is involved with...

- Christina Basin Clean Water Partnership
- Water Supply and Water Demand Forecasts
- Water Resources and GIS Education/Outreach
- City of Wilmington Green Jobs Program
- Delaware Water Supply Coordinating Council
- White Clay Creek Dam Removal
- Floodplain and Stormwater Management
